Testing Stream Mock Test 2 Max Marks: 25

1) **An important benefit of code inspections is that they:**

a) enable the code to be tested before the execution environment is ready.

b) can be performed by the person who wrote the code.

c) can be performed by inexperienced staff.

d) are cheap to perform.

2) **What is the main difference between a walkthrough and an inspection?**

a) An inspection is lead by the author, whilst a walkthrough is lead by a trained moderator.

b) An inspection has a trained leader, whilst a walkthrough has no leader.

c) Authors are not present during inspections, whilst they are during walkthroughs.

d) A walkthrough is lead by the author, whilst an inspection is lead by a trained moderator

3) **Which one of the following describes the major benefit of verification early in the life cycle?**

a) It allows the identification of changes in user requirements.

b) It facilitates timely set up of the test environment.

c) It reduces defect multiplication.

d) It allows testers to become involved early in the project.

4) Which of the following statements about reviews is true?

a) Reviews cannot be performed on user requirements specifications.

b) Reviews are the least effective way of testing code.

c) Reviews are unlikely to find faults in test plans.

d) Reviews should be performed on specifications, code, and test plans.

5)Which of the following statements are TRUE for informal reviews?

I. Easy to get started and have some benefit
II. Have no or minimal formal process
III. The process must be documented
IV. May include “paired programming”
A. I, II and IV
B. I and III
C. III and IV
D. I, III and IV
6)Which of the following are success factors for reviews?
I. Clear objectives for each review.
II. Checklists and/or roles are used to increase effectiveness of defect identification.
III. There is an emphasis on process improvement.
IV. People issues and psychological aspects are not reviewed.
A. I and III
B. II, III and IV
C. I, II and III
D. IV
7)Why are static testing and dynamic testing described as complementary?
A) Because they share the aim of identifying defects and find the same types of defect.
B) Because they have different aims and differ in the types of defect they find.
C) Because they have different aims but find the same types of defect.
D) Because they share the aim of identifying defects but differ in the types of defect they find.
8)Which of the statements about reviews are correct?
I. Reviews are useful because, through their use, defects can be found early, resulting in cost savings.
II. Reviews are useful because they help management understand the comparative skills of different
developers.
III. Testers should not get involved in specification reviews because it can bias them unfavorably.

IV. Many early defects are found in reviews, lengthening the time needed for the development life cycle

A. I

B. IV

C. I and IV

D. I and III

9)What do walkthroughs, technical reviews and inspections have in common?

I. They have defect finding as an objective.

II. Pre-meeting preparation is required.

III. They can be performed as a “peer review”.

IV. The meeting is led by a trained moderator.

A. I, II and III

B. III and IV

C. I and III

D. II, III and IV

10)In a formal inspection process, which is TRUE?

A. Failures can be found when the correct inspectors are included.

B. Metrics are included in the inspection process.

C. The checking rate is related to the number of pages of the inspected document.

D. Its purpose is to get some benefit in an inexpensive way.

11)Which of the following are most likely to enhance the formal review process?

I. Review software work products as soon as they are available and reasonably mature.

II. Ensure that reviewers have clear, predefined objectives.

III. Exclude customers, managers, and outside experts to minimize impact on problem solving.

IV. Make use of checklists during the review to drive the process and aid reviewers.

V. Conduct reviews just before coding and dynamic testing begins to find defects early and minimize

costs of extra reviews.

A. I, III and V

B. II, III and IV

C. II, IV and V

D. II and IV

12)Who is responsible for document all the issues, problems and open point that were identified during the review meeting

A. Moderator

B. Scribe

C. Reviewers

D. Author

13)QC is

A. Phase building activity

B. Intermediate activity

C. End of Phase activity

D. Design activity

14) Typical defects that are easier to find in reviews than in dynamic testing are:

A. Deviations from standards

B. Requirement defects,Design defects

C. Insufficient maintainability and incorrect interface specifications.

D. All of the above.

15) Find the correct flow of the phases of a formal review

A. Planning, Review meeting, Rework, Kick off

B. Planning, Individual preparation, Kick off, Rework

C. Planning, Review meeting, Rework, Follow up

D. Planning, Individual preparation, Follow up, Kick off

16) Which of the following statements regarding static testing is false:

A. Static testing requires the running of tests through the code

B. Static testing includes desk checking

C. Static testing includes techniques such as reviews and inspections

D. Static testing can give measurements such as cyclomatic complexity

17) Which of the following is a Key Characteristics of Walk Through

A. Scenario , Dry Run , Peer Group

B. Pre Meeting Preparations

C. Formal Follow Up Process

D. Includes Metrics

18) The Planning phase of a formal review includes the following :-

A. Explaining the objectives

B. Selecting the personnel, allocating roles.

C. Follow up

D. Individual Meeting preparations

19)Reviews can be used to assess product and process quality

a)True

b)False

20) QC activities focus on finding defects in specific deliverables

a)True

b)False

21) The Kick Off phase of a formal review includes the following :

A) Explaining the objective

B) Fixing defects found typically done by author

C) Follow up

D) Individual Meeting preparations

22) Peer reviews/Buddy checks are also called as

A) inspections

B) walkthrough

C) technical review

D) formal review

23)Which statement about the function of static analysis tool is true?

A)Gives quality information about the code without executing it.

B) Checks expected results against actual results.

C) Can detect memory leaks.

D) Gives information about what code has and has not been exercised.

24)‘Entry criteria should address questions such as

I. Are the necessary documentation, design and requirements information

available that will allow testers to operate the system and judge correct behaviour.

II. Is the test environment-lab, hardware, software and system administration support ready?

III. Those conditions and situations that must prevail in the testing process to allow testing to continue effectively and efficiently.

IV. Are the supporting utilities, accessories and prerequisites available in forms that testers can use.

A) I, II and IV

B)I, II and III

C)I, II, III and IV

D)II, III and IV.

25 In formal review, Rework: fixing defects found typically done by _____

A Moderator

B Author

C Reviewer

D Recorder
